Building Emergency Evacuation Plan

How to Report an Emergency

Call 911 and Calmly State:

- Your name
- Address
- The nature of the emergency
- Whether injuries have occurred
- A phone number near the scene where you can be reached

Name of Institution: Valley College – Beckley Campus

Physical Address: 120 New River Town Center, Suite C
Beckley, WV 25801

Phone number: 304-252-9547

Building Evacuation

Upon hearing the fire alarm or announcement, begin evacuation procedures.

- Keep yourself and others calm.
- Quickly proceed outside the building to the announced safe location using the planned evacuation route.
- Close doors as you leave.
- Instructors will take the Attendance Book for correct head count.
- Report immediately to the designated “safe area” located at the bottom of the student parking lot.
- Check with Vice President/Campus Director (or person in charge) who will take a head count from the instructors.
- Wait for instructions from emergency response personnel. Do not re-enter the building until told it is safe to do so.
Safe Area Location

The safe area for the staff and students is designated as the end of the staff parking lot area at the back of the campus close to the student side back door smoking area at the dirt mound. This will provide room for emergency vehicles in the front of the campus and back of the campus staff parking space area closest to the building.

Planned Evacuation Route

Faculty and students will follow a planned evacuation route when exiting the building. That route will be from the classroom and lab areas through the hallway and out the front main entrance door. If that area is blocked by fire, students and faculty will exit through the hallway and out the back door past the HVAC Lab on the left and HVAC computer Lab on the right and continue out the student smoking area back door and straight back to the end of the staff parking space area at the dirt mound.

Staff at the front desk, career center and administrative offices side of the building will exit through the front main entrance door and back to the dirt mound at the back of the staff parking space area. If that area of the building is blocked by fire, staff will exit through the staff lounge area back door. All staff and students will continue through the parking lot areas to the back of the staff parking space area at the dirt mound to allow for passage of emergency vehicles.

ALL EVACUATION ROUTES ARE CLEARLY POSTED AND MARKED BY EXIT SIGNS THROUGHOUT THE BUILDING.

Building Safety Systems

The school building located at 120 New River Town Center and has the following safety systems:

- Alarms: Fire alarms are located throughout the building.
- Smoke Detectors: Smoke detectors are located throughout the building.
- Fire Extinguishers: Fire extinguishers are located in all classrooms and office areas of the building.
- Manual Alarm Pull Stations: Manual alarm pull stations are located near all entrances of the building.
- First Aid Kits: First aid kits are available in the administrative office area.
Evacuation Personnel

The following staff will serve as evacuation personnel.

**Emergency Announcer**: Vice President/Campus Director or staff member left in charge by the Vice President, South/Campus Director. Announcer will announce any disasters to all areas of the building.

**Evacuation Warden**: Philip Dues  
**Alternate Warden**: Juanita Acheampong

Wardens will:
- Supervise evacuation procedure
- Check with searchers to get an “all clear” report or find out any problems.
- Report to the Command Center if areas were unsearched due to lack of personnel.
- Ensure that all people from the area proceed to the designated meeting place to check in and wait for “all clear” which will come from the Command Center.
- Report any problems to the Command Center.

**The Command Center will be the Fire Department.**

**Searcher**: Noah Balser  
**Searcher**: Terry Clay

Searchers will:
- Check all rooms including restrooms, conference rooms, and remote areas, closing all doors behind them.
- They will advise remaining employees or other persons on the floor about the emergency and the requirement to evacuate.
- When the area is “clear” they will proceed out of the building.

Date of Last Evacuation Drill

The last evacuation drill at the Beckley Campus of Valley College was held on 11/13/2014. The next evacuation drill is scheduled for April 22, 2015.
Fire Emergency Plan

If you discover fire or see smoke do not panic. Call 911 and proceed with the following:

RACE

Remove/Relocate individuals away from danger; if possible without endangering your safety.

Activate Alarm: Call 911

Confine/Contain fire and smoke by closing doors and windows.

Extinguish fire only if trained and fire is small by using the nearest fire extinguisher.

Follow Instructions for the Building Evacuation Plan

- Check doors with the back of your hand to ensure it is cool before opening.
- Walk quickly – Do Not Run – out of the building to the designated safe place.
- Instructors should lead students to the designated safe area at the back of the parking area.
- Instructors should take the Attendance Book with them.
- Instructors should take attendance once at the safe area and report to the Evacuation Warden.

Do Not Re-Enter the Building until the ALL CLEAR is issued by the FIRE DEPARTMENT
Severe Weather Plan

Severe weather includes tornados, severe thunderstorms, violent snow storms, and flooding.

Tornados/Severe Thunderstorm Watch:
If a tornado or severe thunderstorm watch has been issued in an area that includes the campus:

- Monitor local emergency alert weather stations or the National Weather Service.
- Faculty and staff should be alerted to inform students of building’s safe areas and be ready to relocate to those areas in case the Watch is upgraded to a Warning.

Definition of a Watch: A severe thunderstorm or tornado watch is issued by the National Weather Service when the weather conditions are such that a severe thunderstorm, a tornado, or both, are more likely to develop and you should be prepared to move to a designated safe area.

Definition of a Warning: A severe thunderstorm or tornado warning is issued by the National Weather Service when a thunderstorm or tornado has been sighted or indicated by weather radar. At this point the danger is very serious and you should move to a designated safe area.

If a tornado or a severe thunderstorm WARNING has been issued in the area that includes the campus:

- Move students and staff to safe areas IMMEDIATELY.
- Close classroom, laboratory, and office doors.
- Instructors should take the attendance book to the safe areas with them.
- Remain in safe area until warning expires or until the “all clear” has been issued.

School Closings and delays will be decided by the Executive Director and Campus Directors. Announcements of such will be made on WOAY and WVNS and also by radio on 94.1
A phone tree has been established if calls need to be made to staff in emergency situations.
- Beth Gardner/Marie Rhodes will call/text the admissions reps, financial aid reps and Online staff.
- Juanita Acheampong will call/text the instructors and Faculty Aid
- Marie Rhodes will call/text the Director of First Impressions, Placement Director, Placement Advisor, Bursar and Enrollment Coordinator.
Safe Area Location

The classrooms, computer labs, file room and staff offices, with the exception of the offices of the Vice President and Campus Director, are the safe areas for both students and staff since these rooms, labs and offices do not have windows.

Hostage/Intruder Situation Plan

If an intruder enters a classroom or enclosed area with a weapon and threatens to shoot or injure persons the following guidelines should be followed:

Responsibilities:

**Vice President/Campus Director/Designee**
- Immediately notify police (911)
- Initiate **Action Secure Building**
  - Lock down building and do not let any students that are not in class enter the building.
  - Alert all rooms of the event.
  - Instructors will lock classroom doors.
- If the Vice President/Campus Director is not present, notify the Vice President/Campus Director of the situation.
- Monitor hostage situation the best you can without doing anything to exacerbate it.
- Follow instructions of law enforcement officials who will take over when they arrive on site.

**Staff**
- Remain calm. Talk with the individual in a low-key, non-threatening manner. Do not argue with or antagonize the individual in any way.
- Keep your distance. Give the intruder ample personal space.
- Do not attempt to deceive or threaten the intruder.
- Do not buy into the delusions of the intruder.
- Suggest marching the students or staff quietly out the back door. Back off if this approach angers the intruder.
- Be constantly alert and prepared for violence. Initiate **Action Duck, Cover and Hold** if the intruder opens fire. **DUCK** down and take **COVER** under a sturdy desk or table and **HOLD** this position until the “all clear” is given.

**Note:** If the school becomes involved in a hostage situation the primary concern must be the safety of the students, staff, and faculty. Individuals who take hostages are frequently emotionally disturbed and the key to dealing with them is to make every attempt to AVOID antagonizing them. Communication must be handled in a non-joking manner; always remembering that it may take very little to cause such persons to become violent.
Vice President/Campus Director/Designee
- Inform staff supervising students in the classroom to initiate *Action Duck, Cover & Hold*.
- Immediately notify police by calling 911.
- If the Vice President/Campus Director is not present, notify the Vice President/Campus Director of the situation.
- Work in coordination with supervisors of law enforcement until the situation is resolved.
- Initiate student release procedures and or evacuation procedures only if it becomes necessary.

Staff
In classrooms, maintain *Action Duck, Cover & Hold* until the situation is resolved.
In open areas, move the students to safer areas as quickly as possible. Only in extreme cases should it become necessary to initiate *Action Duck, Cover & Hold*. This should be done only when there is no chance for the students to reach safer areas.
