RACE

Activate Alarm: Call 911

Severe Weather Plan
(Discussed at every Orientation)

Severe weather includes tornados, severe thunderstorms, violent snow storms, and flooding.

Tornados/Severe Thunderstorm Watch:
If a tornado or severe thunderstorm watch has been issued in an area that includes the campus:

- Monitor local emergency alert weather stations or the National Weather Service.
- Faulty and staff should be alerted to inform students of building’s safe areas and be ready to relocate to those areas in case the Watch is upgraded to a Warning.
**Definition of a Watch:** A severe thunderstorm or tornado watch is issued by the National Weather Service when the weather conditions are such that a severe thunderstorm, a tornado, or both, are more likely to develop and you should be prepared to move to a designated safe area.

**Definition of a Warning:** A severe thunderstorm or tornado warning is issued by the National Weather Service when a thunderstorm or tornado has been sighted or indicated by weather radar. At this point the danger is very serious and you should move to a designated safe area.

If a tornado or a severe thunderstorm WARNING has been issued in the area that includes the campus:

- Move students and staff to safe areas IMMEDIATELY.
- Close classroom, laboratory, and office doors.
- Instructors should take the attendance roster to the safe areas with them.
- Remain in safe area until warning expires or until the “all clear” has been issued.

**School Closings and delays will be decided by the Executive Director and Campus Directors.**
Announcements of such will be made on WVVA and WVNS and also by radio on 104.5 and 99.5.

A phone tree has been established if calls need to be made to staff in emergency situations.
- Carrie Kennedy will call/text the admissions reps and financial aid rep.
- Elizabeth Prajapati will call/text the instructors and the Academic Administrative Aide.
- George Campbell will call/text the enrollment coordinator, the Director of First Impressions and the Placement Director.

**Safe Area Location**

Classroom C is the designated safe area location.
Hostage/Intruder Situation Plan
(Discussed in Step-up meeting 1/08/15)

If an intruder enters a classroom or enclosed area with a weapon and threatens to shoot or injure persons the following guidelines should be followed:

Responsibilities:

Campus Director/Designee
- Immediately notify police (911)
- Initiate **Action Secure Building**
  - Lock down building and do not let any students that are not in class enter the building.
  - Alert all rooms of the event.
  - Instructors will lock classroom doors.
- If the Campus Director is not present, notify the Campus Director of the situation.
- Monitor hostage situation the best you can without doing anything to exacerbate it.
- Follow instructions of law enforcement officials who will take over when they arrive on site.

Staff
- Remain calm. Talk with the individual in a low-key, non-threatening manner. Do not argue with or antagonize the individual in any way.
- Keep your distance. Give the intruder ample personal space.
- Do not attempt to deceive or threaten the intruder.
- Do not buy into the delusions of the intruder.
- Suggest marching the students or staff quietly out the back door. Back off if this approach angers the intruder.
- Be constantly alert and prepared for violence. Initiate **Action Duck, Cover and Hold** if the intruder opens fire. DUCK down and take COVER under a sturdy desk or table and HOLD this position until the “all clear” is given.

**Note:** If the school becomes involved in a hostage situation the primary concern must be the safety of the students, staff, and faculty. Individuals who take hostages are frequently emotionally disturbed and the key to dealing with them is to make every attempt to AVOID antagonizing them. Communication must be handled in a non-joking manner; always remembering that it may take very little to cause such persons to become violent.

Campus Director/Designee
- Inform staff supervising students in the classroom to initiate **Action Duck, Cover & Hold.**
- Immediately notify police by calling 911.
- If the Campus Director is not present, notify the Campus Director of the situation.
- Work in coordination with supervisors of law enforcement until the situation is resolved.
- Initiate student release procedures and or evacuation procedures only if it becomes necessary.

Staff
In classrooms, maintain **Action Duck, Cover & Hold** until the situation is resolved.
In open areas, move the students to safer areas as quickly as possible. Only in extreme cases should it become necessary to initiate *Action Duck, Cover & Hold*. This should be done only when there is no chance for the students to reach safer areas.
